Notification of Road Maintenance in Your Area

The Town of Neenah will be in your area soon to complete a resurfacing project on a portion of Woodenshoe Road beginning at Breezewood Lane, heading south and ending at 7076 Woodenshoe Road. Work should start in your area in the next couple of weeks, depending on weather and availability of both crews and equipment. The long-term goal, dependent upon adequate funding, is to replace road culverts and complete the remaining portion of Woodenshoe Road south to County Rd G in 2018.

The existing road surface will be pulverized and compacted to form the stone base for the new surface. One to two weeks later, after the surface has settled and traffic has compacted the stone base further, crews will return to install two layers of asphalt to the surface. The road will remain open to traffic but you may experience delays while the crews are on site working.

Proper drainage including the roadway, shoulders, ditches and culverts, is critical to a quality road that lasts. You will be notified if it is necessary to replace your driveway culvert as part of the project.

The Town will blend the new road surface into your existing driveway approach. If you are interested, at your expense, the Town can extend the asphalt into your driveway approach to the end of the road right of way which extends 33 feet from the center of the road. The Town will not do work on private property. If you are interested, you must contact Ellen at 725-0916 or ellen@townofneenah.com **by July 3, 2017** to make these arrangements.

Please contact the Town Hall at (920) 725-0916 if you have further questions or comments. The Town Board appreciates your understanding and cooperation during this project.

Respectfully,

Ellen Skerke
Clerk-Treasurer
